EDUCATION

Macquarie University, Sydney, NSW *Feb 2025 – Present*
Bachelor of Commerce | GPA: 3.8/4

University of Economics Ho Chi Minh City, Vietnam *Oct 2023 – Dec 2024*
Bachelor of Commerce | GPA: 4.0/4.0

PROFESSIONAL EXPERIENCE

Bacera Co Pty Ltd (BCR Co Holdings Corp) | *Corporate Finance (FP&A) Intern* *Sydney | Mar 2026 – June 2026*

- Supported the preparation and review of monthly, quarterly, and annual financial forecasts and reports for six business units with $500 million in quarterly revenue.
- Tracked macroeconomic indicators (CPI, NFP, PMI, etc.) and prepared quarterly variance analysis reports for each business unit, analysing data to explain revenue fluctuations totalling $50 million against forecasts.

Practera | *Consulting Intern* *Sydney | Oct 2025 – Feb 2026*

- Conducted end-to-end research and financial analysis across 3 companies, identifying expense trends and profit drivers to support evidence-based decision making, enabling leadership to optimise budget allocations and reduce overhead costs by 12% YoY.
- Resolved ambiguity in 10+ key performance indicators through stakeholder engagement with metric owners to redefine, document, and standardise each metric, resulting in a 25% decrease in reporting-related stakeholder queries and improved data quality across dashboards.
- Designed and deployed a multi-tier sales incentive dashboard in Power BI, using DAX measures and calculated columns to automate bonus eligibility across employee hierarchies, enabling real-time KPI tracking, data visualisation and 100% compliance.

SOSP Consulting Group | *Research & Data Intern* *HCM | 2024*

- Improved Excel-based reporting processes and report turnaround by 20% through optimised templates, lookup logic and structured data transformation, supporting continuous improvement and more efficient decision-making.

PROJECTS

Private Equity Modeling (BIWS) | *Excel* *2026*

- Reviewed Watches of Switzerland's annual reports and investor presentation and built a 3-statement LBO model for a potential £1.6 billion deal; recommended the transaction based on a likely 20%+ IRR even if the company falls short of management forecasts, and suggested Preferred Stock or a Shareholder Loan to mitigate key risks.

Strait of Hormuz Maritime Disruption Analysis | *Python, Excel* *2026*

- Researched and analysed Strait of Hormuz shipping disruption using IMF PortWatch AIS transit data and FRED crude oil benchmarks; quantified the collapse from ~95 to ~5 ships/day, 13x worse than the route's COVID-19 low.
- Tracked a WTI-Brent spread blowout from $3.96 to $23.83 and a fall in daily trade volume of 3.35 million metric tons; identified a 17-ship traffic spike on 30 March, mostly tankers, as an early signal of ceasefire talks.

VOLUNTEER EXPERIENCE

- Community Volunteer — City of Ryde Council (2025)
- Student Buddy — Macquarie University Buddy Program (2025-2026)
- Student Leader — Bachelor of Commerce, Macquarie University (2025-2026)
